

"Sparking Innovation in our Youth"

PRESENTS

DRONE WARS

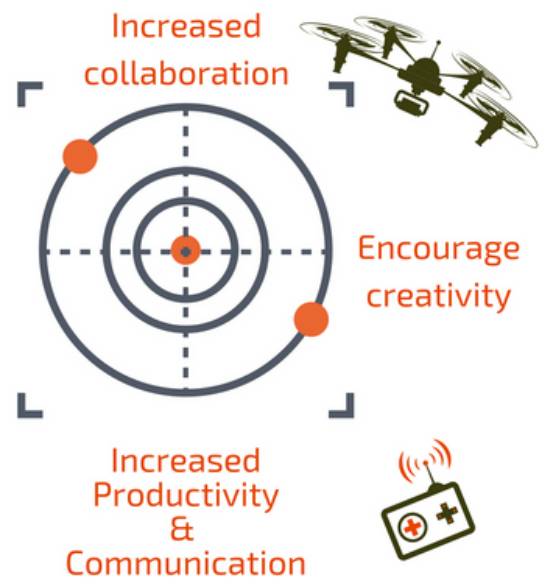

2019 SUMMER CAMP

Drone Wars Ground:

Camp will cover the use of Ground Drones for performing real-life challenges and military missions. Campers will build team collaboration skills, spatial awareness and learning about the first-person view to control and navigate drone. Challenges and Missions will test campers in Mathematics, measurement, problem-solving and logical calculations. Campers will experience real-life role assignment and expectations. The camp uses Parrot Jumping Sumo Minidrone, Tynker App and Parrot Free Flight Jumping App.

Drone Wars Air:

Camp will focus on the use of flying mini-drone to complete challenges. The challenges will allow campers to garner real-world experience in drone operation and business. The focus will be on coding drone to perform operations over using remote control. Campers are assigned a real-life role and will work in teams to accomplish Military and business-related missions. Camp utilizes Parrot Flying Minidrone, Tynker app, and Free Flight Mini ap.
