Summer Camp Programs

Week 1: Skidaway Island State Park

A fun week of laboratory, land, and water studies at Georgia's Marine Education Center. This camp offers a hands on approach to learning marine and science coastal ecology. Our camp will incorporate a wide range of science activities such as fish and oyster dissections, beach and dune studies, and a bottlenose dolphin study. Saving the best for last students will have the opportunity to board the *Sea Dawg*! This field trip on the water will allow students to collect, sort, and identify marine specimens. Housing and meals are dormitory style which gives students a great community feel. There is a full service café conveniently next door that offers complimentary breakfast, lunch, and dinner.

Week 2: Digital Art & Photography

This summer experience is a fun week-long exploration of digital art and photography techniques. This camp incorporates hands on camera shooting while learning how to digitally transform art using vector based professional software. You can bring your own camera or we have cameras available for use. You can even use your phone! On day four we have planned a day trip to the High Museum of Art to tour their extensive art collection and meet with the High's curating team to check out the photography archives!

Week 3: Adventure Week

A week of exploring Atlanta's coolest adventure spots, with trips planned to Six Flags, White Water, GA Aquarium, The Coca-

Cola Museum, Centennial Park, and Friday Bowling. This is a summer camp that is sure to keep students entertained!

Week 4: Sports Camp/Basketball Clinic

This camp includes character development, agility, cardiovascular drills, offensive drills, and game like situations. An all-star friendly competition is scheduled at the end of the camp week where students will be able to put their basketball skills to the test!

Week 5: School Prep Week

School Prep week will allow students to ease into the new school year with 2 hours of academics daily. Focusing on Math and Language Arts, students will be able to refresh their skills in a school environment that is sure to prepare them for the upcoming school year. There will be an enrichment focus on social skills and physical activity in order to give the camp a well rounded feel. Lastly, on Friday we will have a fun off campus field trip they won't want to miss!
